Languages

- English
- Hindi
- Marathi

Profile Summary

I embarked on my coding journey in 2020 during my 11th standard. Initially, I developed static pages and showcased my work on platforms such as Fiverr and Upwork. After two years of persistent learning and exploration, I secured my first client in 2022. Subsequently, I honed my expertise in various technologies including Django Rest, React.js, and hosting through freelancing. Over the span of two years, I undertook and successfully delivered multiple automation projects. Presently, I am dedicated to advancing my skills in the realm of AI/ML, striving to further augment my proficiency in this field.
